WHAT YOU WILL SEE ON YOUR BALLOT

The proposed amendment would:

- Establish in the Constitution of the State of Ohio an individual right to one's own reproductive medical treatment, including but not limited to abortion;

Wide open. Could include many "reproductive" procedures.

- Create legal protections for any person or entity that assists a person with receiving reproductive medical treatment, including but not limited to abortion;

#2

Protects pedophiles/traffickers facilitating abortions on minors.

- Prohibit the State from directly or indirectly burdening, penalizing, or prohibiting abortion before an unborn child is determined to be viable, unless the State demonstrates that it is using the least restrictive means;

- Grant a pregnant woman's treating physician the authority to determine, on a case-by-case basis, whether an unborn child is viable;

#1

The abortionist makes the final decision whether the baby lives or is aborted.

Thus: this would make painful, late-term abortions legal.

- Only allow the State to prohibit an abortion after an unborn child is determined by a pregnant woman's treating physician to be viable and only if the physician does not consider the abortion necessary to protect the pregnant woman's life or health; and

- Always allow an unborn child to be aborted at any stage of pregnancy, regardless of viability if, in the treating physician's determination, the abortion is necessary to protect the pregnant woman's life or health.

By precedent, this is not just physical health, but also emotional, financial, & more.

	Yes	Shall the Amendment be Approved?
	No
